With this response, we are providing an additional 474 pages of records responsive to item #1 of your request.

The DFO continues processing your request and will issue a final response.

Following a review of the responsive records, the DFO has determined that certain information contained therein should be withheld pursuant to U.S.C. § 552(b)(4) (FOIA Exemption 4) and U.S.C. § 552(b)(6) (FOIA Exemption 6). Below is an explanation of the information that has been withheld.

Exemption 4 of the FOIA protects “trade secrets and commercial or financial information obtained from a person [that is] privileged or confidential.” 5 U.S.C. § 552(b)(4). The exemption covers two distinct categories of information in federal agency records, (1) trade secrets, and (2) information that is (a) commercial or financial, and (b) obtained from a person, and (c) privileged or confidential. The information was submitted to USDA by several businesses and industry associations. We have sought input from these businesses regarding whether they treat the information they provided as confidential. We have determined that portions of these records contain commercial or financial information customarily treated as private by the business submitters, and we have withheld these portions pursuant to FOIA Exemption 4.

Exemption 6 of the FOIA is generally referred to as the “personal privacy” exemption. It provides that the disclosure requirements of FOIA do not apply to “personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.” Application of the exemption involves balancing the public’s interest in disclosure against individuals’ privacy interests.

The information withheld under Exemption 6 consists of mobile phone numbers, direct phone numbers for third parties, conference line passcodes, and private email address handles. This information qualifies as “similar files” because it is information in which individuals have a privacy interest. Moreover, releasing the information could subject the individuals to unwarranted or unsolicited communications. Since there is a viable privacy interest that would be threatened by disclosure, Exemption 6 authorizes this office to withhold the information. Accordingly, we have determined that the public interest in the information’s release does not outweigh the overriding privacy interests in keeping it confidential.
